

LactoGG®+

Name of Product

LactoGG®+ Sachet

Description of product

A probiotic product packed in sachets, ready to be mixed with food, drinks or water before consumption.

Contains *Lactobacillus rhamnosus* GG (ATCC 53103), the most-researched and documented probiotic strain.

High in natural dietary fibre, Fructooligosaccharide (FOS)

Amount of dietary fibre high enough to exert PREBIOTIC effect.

Ingredients

- Chicory root extract dietary fibre called Fructooligosaccharide (FOS)
- Probiotic bacteria, *Lactobacillus rhamnosus* GG (ATCC 53103) at least **20 billion cfu/sachet**

Natural sweet flavour of chicory root extract.

No artificial sweeteners, colour, flavour or texture enhancers.

Serving suggestion

Children: 1- 2 sachets to be mixed and dissolved in room temperature or cool water, food or drinks and then consumed

Adult: 1- 2 sachets, or adjusted to meet individual needs

Powder may be consumed directly from the sachet.

Country of origin

Manufactured in Hong Kong with ingredients from Europe

Safety

Documented in published clinical and research papers.

Suitable for use in all age groups, during pregnancy and breastfeeding

High value features

LactoGG®+ identifies with the “Clean Label”.

- Lactobacillus rhamnosus GG (ATCC 53103)

Conforms with the criteria of a true and effective probiotic, as stipulated in FAO/WHO guidelines on probiotics.

World’s most researched probiotic strain with over 1000 published research papers.

The “GG” probiotic is the reference strain and gold standard for probiotic research.

Number of live Lactobacillus rhamnosus GG (ATCC 53103) is sufficient to deliver health benefits, as documented in nearly 300 clinical studies.

- FOS

Level of FOS is adequate to provide prebiotic effects such as increase intestinal bifidobacteria and help maintain a good intestinal environment.

FOS complements “GG” probiotic to stimulate the rapid establishment of healthy gut bacteria in infants and promotes maturation into a diverse and healthy intestinal bacterial eco-system.

Rich in dietary fibre. Dietary fibre helps maintain normal bowel function and prevents constipation.

Sweet yet very low in sugar. May be used as a sugar substitute.

Does not promote dental decay.

Very low in salt.

Packing

Nitrogen flushed sachets

2.0 g per sachet

Pack sizes of 12 sachets and 30 sachets

Shelf life

36 months
